

COSMETOLOGY/HAIR DESIGN

Purpose:

Students are given the opportunity to demonstrate knowledge, skills and talents learned in the area of a career/technology education class. Through the completion of individual projects, students will demonstrate technological literacy. These activity-based assignments better prepare students to become productive members of the industrial and technological community or to enter a post-secondary institution after graduation.

Description:

Entries for this contest must consist of the results of the work of the individual student. All work must be documented and verified by the cosmetology instructor, a beautician, or the individual who is receiving the cosmetology treatment. The verification may be a letter or a simple statement signed by one of the above.

Rules and Procedures:

The students must adhere to the following format:

Rules And Procedures:

1. A CTI competitive event portfolio, display board and project which meet all guidelines laid out in the Cosmetology Hair Design rubric.
2. Maximum Project size requirement is 4'L x 4'W x 8'H.
3. Each contestant will be interviewed and career objectives of the contestant will be stressed along with employability/soft skills in the oral interview.
4. The student/coordinator is responsible for project set-up prior to competition and removal of his/her project at the conclusion of the contest.
5. The project must be the original work of the student.
 - **Appendix E student project authenticity verification form-- MUST be included as the last page in the CTI competitive event portfolio or the student will be disqualified.**
6. No live models will be permitted.

Suggested Questions For Judges:

1. Why did you choose to select this project?
2. What were the major steps you used to complete this project?
3. Where was the project assembled?
4. How long did it take from beginning to completion?
5. What products did you use?
