

FLORICULTURE

Purpose:

Students are given the opportunity to demonstrate knowledge, skills and talents learned in the area of a career/technology education class. Through the completion of individual projects, students will demonstrate technological literacy. These activity-based assignments better prepare students to become productive members of the industrial and technological community or to enter a post-secondary institution after graduation.

Description:

The contest is designed to evaluate each contestant's preparation for employment and to recognize outstanding students for excellence and professionalism in the field of floral design/floriculture.

Examples:

Project ideas include, but are not limited to, the following areas:

Table Centerpiece
Bridal Bouquet
Door Wreath
Funeral Spray

Rules And Procedures:

1. A CTI competitive event portfolio, display board and project which meet all guidelines laid out in the Floriculture rubric.
2. Maximum Project size requirement is 4'L x 4'W x 8'H.
3. Each contestant will be interviewed and career objectives of the contestant will be stressed along with employability/soft skills in the oral interview.
4. The student/coordinator is responsible for project set-up prior to competition and removal of his/her project at the conclusion of the contest.
5. The project must be the original work of the student.
 - **Appendix E student project authenticity verification form-- MUST be included as the last page in the CTI competitive event portfolio or the student will be disqualified.**
6. Contestants may use silk or cut flowers.

Suggested Questions For The Judges:

1. Why did you choose to select this project?
2. What were the major steps you used to complete the project?
3. Where was the project assembled?
4. How long did it take from beginning to completion?
5. What materials did you use?
6. How much did the materials cost?
7. If you had the opportunity to construct this project again, what changes would you make?
Why?
8. How does this project relate to your career path?
9. Are there jobs related to your project in the area where you reside (live)?
10. How will this career path contribute to your achievement of success in life?
