# HEALTHCARE SCIENCE TECHNOLOGY

## Purpose:

Students are given the opportunity to demonstrate knowledge, skills and talents learned in the area of a career/technology education class. Through the completion of individual projects, students will demonstrate technological literacy. These activity-based assignments better prepare students to become productive members in healthcare related professions or to enter a post-secondary institution after graduation.

### **Description:**

This is a performance-based contest. Students will be expected to demonstrate skills/competencies of their choice within a 5 minute time limit. Project display boards are not required for this event.

#### Examples:

Demonstration ideas include, but are not limited to, the following areas:

CPR Demonstration Dental Care Donning and Removing of Isolation Garments First Aid Procedures

## **Rules And Procedures:**

- 1. A CTI competitive event portfolio and a skill demonstration which meet all guidelines laid out in the Health Care Science rubric.
- 2. Each contestant will be interviewed and career objectives of the contestant will be stressed along with employability/soft skills in the oral interview.
- 3. Contestants should wear appropriate clinical attire including shoes. White uniform lab coat or a white tailored shirt/blouse, white pants/skirt and white or dark work shoes (not dress shoes), or colored medical attire (scrubs) must be worn by each student.
- 4. Contestants must bring all materials needed for the clinical presentation to the contest area prior to the start of the competition.
- 5. Once the contestant has entered the contest area, no communication is permitted other than with the judges.
- 6. Numbers will be drawn for the order of competition.
- 7. When preparing the clinical presentation, contestants should adhere to the following guidelines:
  - a. No demonstration should be longer than 5 minutes.
  - b. The contestant must name the exact nature of the presentation.
  - c. Water, gas, air, or electricity may be used during the demonstration when the judges have consented.
  - d. If a patient is needed during the demonstration, a judge will become a patient.

# Suggested Questions for the Judges:

- 1. Why did you choose to select this skill?
- 2. How does this skill relate to your career path?
- 3. Are there jobs related to your skill in the area where you reside (live)?
- 4. How will this career path contribute to your achievement of success in life?
